

Outlines of “CMJ Mark”

Japan Electrical Safety & Environment Technology Laboratories

1. Purpose

These Outlines of “CMJ Mark” cover the conditions according to which the license holders under the Registration Scheme of Electric Components and Materials (hereinafter referred to as “CMJ Registration Scheme”) are to use the Registration Mark (hereinafter referred to as “CMJ Mark”).

2. Scope

The Outlines are applied to the license holders who have components and/or materials registered under CMJ Registration Scheme (hereinafter referred to as “CMJ Registered Products”) based on “Registration Rules of Materials for JET certification”, “Registration Rules of Components for JET Certification” and/or “Operational Rules on Testing and Registration of Thermostats and the like” laid down by JET.

3. Applicable rules

“Rule for use of “CMJ Mark”” (See Annex 1), laid down by the Certification Management Council for Electrical & Electronic Components and Materials of Japan, is applied.

Rule for use of “CMJ Mark”

Heisei 20(2008)–12–01
Certification Management Council for Electrical &
Electronic Components and Materials of Japan

1. Purpose

This rule provides requirements for use of the registered mark (herein after referred to as “CMJ Mark”) which is voluntarily applied to registered components and materials by Japan Electrical Safety & Environment Technology Laboratories (JET) and Japan Quality Assurance Organization (JQA) as a registration body under Component and Material Registration Scheme (herein after referred to as “CMJ Registration Scheme”) recommended by Certification Management Council for Electrical & Electronic Components and Materials of Japan (herein after referred to as “CMJ”).

2. Authority of Controlling CMJ Mark

The authority of Controlling CMJ Mark is JET and JQA.

3. Conditions for use

3.1 License holders may apply CMJ Mark only to registered components and materials.

3.2 The representation of CMJ Mark shall be either a mark as attachment or “CMJ” in capital letters of English. Two types of the clean proof (Photographic copies) of CMJ Mark are available on request from registration bodies.

3.3 CMJ Mark shall be directly applied to each registered component and material except where it is difficult to apply CMJ Mark for any reason, in which case, it shall be, as minimum, applied to the package, etc. directly stocking components and materials.

3.4 CMJ Mark may be used in advertising materials such as catalogues. The use of CMJ Mark shall not lead to misunderstand such that unregistered components and materials are recognized as registered ones.

3.5 For the registration mark of “Equipment Wire” shall be applied as follows;

1) to registration for Flammability; either “CMJ Mark” or “F Mark” or “the combination of them “. The representation of “F Mark” is “F”.

2) to registration for both Flammability and High voltage withstand, either “CMJ Mark” or “combination of F Mark and K mark” or “the combination of CMJ Mark, F Mark and K Mark “ The representation of “K Mark” is “K”.

3.6 Where the registration become invalid, the use of CMJ Mark shall be immediately discontinued.

3.7 Where the explanation of CMJ Mark on the literatures, internet websites, etc. the following example shall be used and in Japanese. If the example is not used for the explanation, the contact with Registration bodies shall be made in advance.

「CMJ Mark」は電気用品部品・材料登録制度に基づき、事前に電気用品安全法の技術基準を満たしていることの確認を受けたマークです。

*CMJ Mark means a mark certifying in advance the conformity with the technical requirements of Electrical Appliance and Material Safety Law.

3.8 Where there is any doubt of the use of CMJ Mark, please contact the registration bodies.

4. Marking scheme

4.1 Colour of the mark is not specific but a single colour.

4.2 Size of a clean proof of CMJ Mark may be changed for scale up or scale down, but the ratio of the configuration shall be kept.

4.3 Use of the part of the Mark shall not be permitted.

5. Display by the third party

The license holder shall be responsible for controlling that Conditions for use in clause 3 is met even though the display on the literatures, websites, etc. is commissioned to the third party such as printing company, advertisement company.

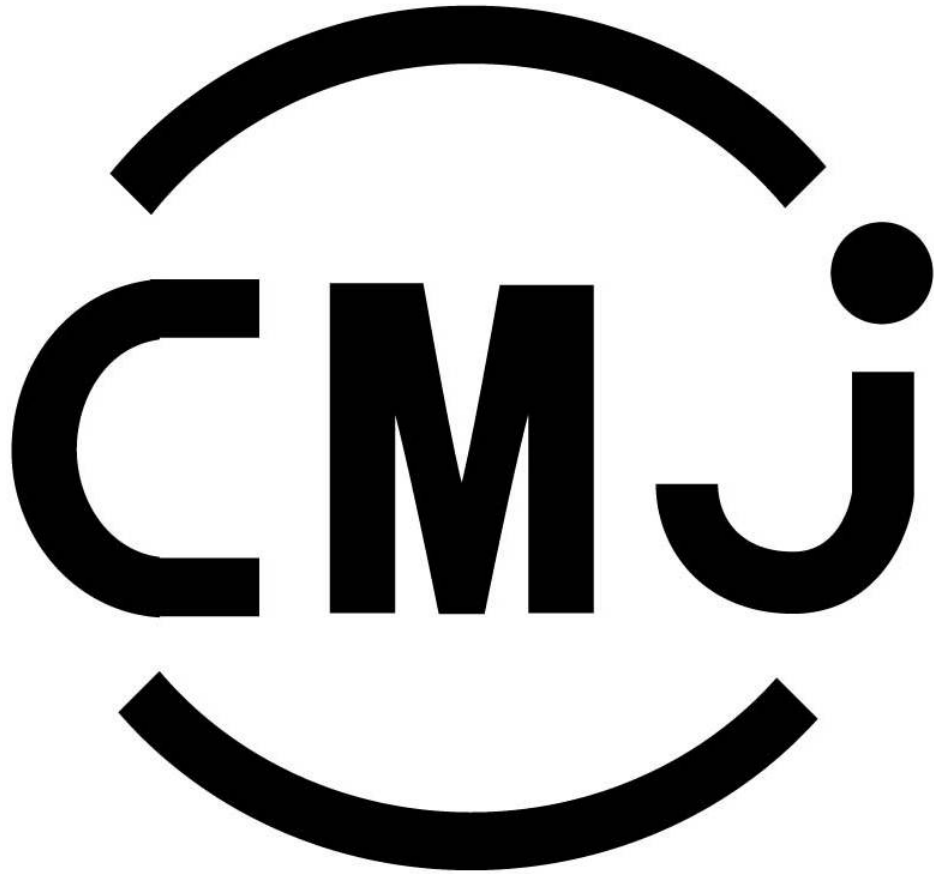

6. Measure for Misuse

6.1 Where the use of CMJ Mark is in the way that gives any misunderstanding such that components and materials not registered are registered is found. the registration body notifies in writing the license holder of the improvement including the recall from the market, if necessary.

6.2 Where the improvement of the misuse is not made, the registration may be withdrawn.

This translation into English is made by Japan Electrical Safety & Environment Technology Laboratories only for the information. Where there is any doubt in interpretation of the requirements of this rule, the original in Japanese shall be applied.

How to get reproduction proof of “CMJ Mark”

Reproduction proofs of “CMJ Mark” (hereinafter referred to as “proof”) are available on application with “Application for reproduction proof of “CMJ Mark”” (Form 1).

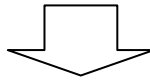

The applicants are requested to keep their copy of “Application for reproduction proof of “CMJ Mark””, which JET will send back to them, properly as well as the Agreements on “CMJ Registered Products”(Agreement on Certificate of Registration and Agreement on JET Certification).

Those who are provided with the proof are permitted to use “CMJ Mark”.

Steps to get reproduction proof

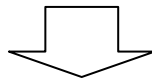

<License holder>

(1) “Application for reproduction proof of “CMJ Mark”” (Form 1) is submitted to JET.

<JET>

Reproduction proof and
a copy of “Application for reproduction proof of “CMJ Mark””(Form 1)
are sent to the license holder.

<License holder>

The license holder is to observe the “Rule for use of “CMJ Mark””.

Date: _____

Application for Reproduction Proof of “CMJ Mark”

Japan Electrical Safety & Environment Technology Laboratories
Tokyo Laboratory
Attention: Director of Tokyo Laboratory

We hereby engage to observe the “Outlines of “CMJ Mark””, laid down by Japan Electrical Safety & Environment Technology Laboratories (JET), in using “CMJ Mark” and apply for Reproduction Proof of the “CMJ Mark” as follows:

(1) By the medium of:

- | | |
|--|------------------|
| <input type="checkbox"/> Hard copy (paper) | Nos. of sheets : |
| <input type="checkbox"/> Graphic data (CD-R) | |

(2) Delivery address:

Addressee (Name and Position):

Postal address:

Telephone:

Facsimile:

E-mail address:

Company name (License holder):

Name of Representative or Person in charge:

Signature / seal: _____

“CMJ mark”

under Registration Scheme for Electrical & Electronic Components and Materials

Date:

JAPAN ELECTRICAL SAFETY & ENVIRONMENT
TECHNOLOGY LABORATORIES
TOKYO LABORATORY, Transaction Group

Dear Client,

We are pleased to notify that the “Rule for use of “CMJ Mark”” has been made public by Certification Management Council for Electrical & Electronic Components and Materials of Japan since December 1, 2008.

The “CMJ Mark”, having been effective under this Rule since February 2009, clearly impresses the user of the products with the fact that the components and/or materials with it have been certified and registered by a third party certification body.

Either Japan Electrical Safety & Environment Technology Laboratories (JET) or Japan Quality Assurance Organization (JQA), at which the components or materials have been registered, takes charge of “CMJ Mark” for them.

The license holders who wish to mark the registered items (or their packing box, wrapping etc.) with “CMJ Mark” are requested to fill in the “Application for Reproduction Proof of “CMJ Mark”” and submit it to the following addressee, which will send the reproduction proof of “CMJ Mark” (hard copy and/or CD-R) to them later on accordingly.

As for the applicant’s name, the name of Representative or Person in charge at the license holder will do.

We are looking forward to serving you.

Sincerely Yours,

Please send your application to:
5-14-12, Yoyogi Shibuya-ku, Tokyo 151-8545 Japan
Japan Electrical Safety & Environment Technology Laboratories (JET)
Tokyo Laboratory, Transaction group

For inquiries on “CMJ Mark” please contact:
