Application Form for Upper Temperature Limit Organic Insulation Material

Date:

To the President,
Japan Electrical Safety & Environment Technology Laboratories:

Name (company and its representative)

Address:

(Signature or Stamp)

I hereby request that you test the insulation material described below to confirm its maximum working temperature in accordance with JET's Operating Regulations on CMJ Registration. (Described in the attached sheet when it isn't mentioned completely.)

1. Type and category for testing
2. Material name
3. Product name, brand and symbol
4. Name and location of manufacturing factory
5. Insulation material category and expected maximum working temperature
6. Type, main filler material, base material, color, thickness, etc.
7. Details of composition (attach a separate sheet)
8. Manufacturing method
9. Test property
10. Requirement of provisional registration
11. Name and symbol of basic material of any similar materials, if any (The first application is removed)
12. Person in charge of request

Person in Charge		Position		Tel.
Address				Fax .

Attached documents

1. Test report—general properties (physical and chemical), exposure temperature and anticipated TI, etc.
2. In the case of materials that have been certified by UL, attach documentation confirming the certification.
3. Items required for application

Fees

Amount billed at time of application	Receipt of payment	Amount billed at completion	Receipt of payment	Registration fee	Receipt of payment
