

JAPAN ELECTRICAL SAFETY & ENVIRONMENT TECHNOLOGY LABORATORIES

How to fill in?

**Applicable test standards in the Interpretation of New ordinance
specifying Technical Requirements for Electrical Appliances**

1. Please be informed that the descriptions of the test standards under Electrical Appliances and Materials Safety Law have been changed as of January 1st 2014. Previously, the test standards on each application form related to Conformity Assessment used to be expressed as “Ordinance 1” or “Ordinance 2”. However, under the new regulation, the division such as “Ordinance1” or “Ordinance2” was abolished, and the test standards to be applied have been updated to Appendixes, shown as follows.

別表第一 電線及び電気温床線

Appendix-1(Cables and Flexible cords including Floor heating cables)

別表第二 電線管、フロアダクト及び線樋並びにこれらの附属品

Appendix-2(Conduit tubes, Floor ducts, Line troughs and their accessories)

別表第三 ヒューズ

Appendix-3(Fuses)

別表第四 配線器具

Appendix-4 (Wiring devices)

別表第五 電流制限器

Appendix-5 (Current limiters)

別表第六 小形単相変圧器及び放電灯用安定器

Appendix-6 (Small single-phase transformers and Ballasts for discharge lamps)

別表第七 小形交流電動機

Appendix-7 (Small AC motors)

別表第八 交流用電気機械器具並びに携帯発電機

Appendix-8 (AC Appliances and machines, Transportable engine generators)

別表第九 リチウムイオン蓄電池

Appendix-9(Li-Ion Secondary Batteries)

別表第十 雑音の強さ

Appendix-10(Radio Noise)

別表第十一 電気用品に使用される絶縁物の使用温度の上限値

Appendix11(Upper limits of usage temperatures for insulating materials)

別表第十二 国際規格等に準拠した基準
Appendix12(IEC-based standards)

The above is the linkage between product categories and Appendixes.

2. For more specific instructions to fill in the test standard on the application form, the following notes specified in Form-2 or Form-4 (Application forms for Conformity Assessment) will be helpful.

[Reference] Form-2 / Form-4

Item-3 : Applied Standard for Testing : Interpretation of the ministerial ordinance defining the technical standards of electrical appliance

Please specify the test standard as “Appendix○”(○ = number), such
As Appendix1-Appendix8 and Appendix10.

For the standard in the previous Ordinance-2, please specify it as
Appendix 12 + J-standards.

(e.g.)

①In case of Thermal links, Link fuses, Cartridge fuses and Other enclosed fuses, the test standard should be specified as Appendix 3.

②In case of DC Power Supply Units under the previous Ordinance-2, the test standard should be specified as Appendix 12 + J-standards.
