To

Applicants for conformity assessment of Specified Electrical Appliances and Materials

July 1<sup>st</sup>, 2026

**Application Methods under the revision of the Description of Electrical Appliances and Materials, Appendix 1 (CABLES AND FLEXIBLE CORDS INCLUDING FLOOR HEATING CABLES) and Appendix 4 (WIRING DEVICES)**

Technical requirements the ministerial ordinance for electrical appliance Appendix 1 (CABLES AND FLEXIBLE CORDS INCLUDING FLOOR HEATING CABLES) and Appendix 4 (WIRING DEVICES) have been consolidated to the harmonized standards of Appendix 12 (J71001(2019)、J74001(2021), etc.) in compliance with the international standards on May 31<sup>th</sup>, 2024. The grace period is set to May 31<sup>th</sup>, 2027. Please find the application methods at JET as follows:

**SUBJECTS:**

The applicants who plan to apply for conformity assessment based on Appendix 1 and 4

**1. Application**

Applications under the former description will be acceptable by the grace period.

The application under the former description will be accepted by Nov. 30<sup>th</sup>, 2026, since the conformity assessments should be completed by the end of the grace period.

Even if the application is accepted before the end of the grace period, reapplication under the new description may be required if the conformity test is not expected to be completed by the end of the grace period due to reasons including postponing of an assessment commencement and/or validation of improvements.

In above case, please note that reassessment and/or additional costs may be required.

**2. Regarding the Statement of Conformity Assessment**

Please note that when transition from the former description to the new description interpretation through a renewal application, the statement number will be reassigned as follows.

Former description : JET\*\*\*\*-#####-1+++    New description : JET\*\*\*\*-#####-2+++

Example : from “JET0000-00000-1005” to “JET0000-00000-2001”

**3. Supplements**

If an applicant holds a validated Certificate of Conformity based on the conformity

assessment under the former description, the certificate is effective until the expiry date noted on the certificate. In this case, no further conformity assessments will be necessary throughout its effective period.

Please note that electrical appliances which will be imported after the completion of the grace period will be required to conform to the new description.
