Conditions for Application for Conformity Assessment

JAPAN ELECTRICAL SAFETY & ENVIRONMENT TECHNOLOGY LABORATORIES

The following conditions shall be accepted for Application for Conformity Assessment.

[Matters related to Application]

- 1. All arrangements necessary for Conformity Assessment shall be made by Applicant including the following:
 - All information necessary for evaluation of the Specified Electrical Appliance or Material of which Conformity Assessment is to be carried out shall be provided to JET.
 - ➤ JET shall be, upon request, allowed to enter the manufacturing factory and/or contact the manufacturing personnel when JET judges it necessary for Conformity Assessment.
 - ➤ The person(s) in charge of the testing facilities, etc. at the manufacturing factory shall be, upon request, present in the inspection of the testing facilities.
- 2. The application is incomplete unless JET receives all of the following: products for testing and necessary documents .
- 3. If the products for testing and the necessary documents are not delivered to JET within 6 month after the application form is submitted, the Application shall be considered to be withdrawn for Applicant's reasons.
- 4. JET may partially outsource the product test and/or the inspection of the testing facilities for Conformity Assessment. JET informs Applicant it at the time of the reception if outsourcing is adopted.

[Matters related to Statement of Conformity Assessment]

- 5. Statement of Conformity Assessment is valid only to the extent of the stated Type Classification, and the fact that the Statement of Conformity Assessment is issued cannot be made public without the valid Statement of Conformity Assessment.
- 6. The fact that the Statement of Conformity Assessment is issued shall not be announced in such a way that may injure JET's reputation.
- 7. The fact that the Statement of Conformity Assessment is issued shall not be announced in such a way that is not permitted by JET or that may lead to misunderstanding.
- 8. The use of all advertisements referring to the fact that the Statement of Conformity Assessment is issued shall be stopped when the government gives instructions to prohibit the marking, etc.
- 9. The Statement of Conformity Assessment shall be used only to show the fact that the product concerned was assessed and passed.
- 10. When Applicant provides Notifying Supplier in Japan, who imports the products concerned, with a copy of the Statement of Conformity Assessment, application shall be made to JET for issue of an official duplicate of the Statement of Conformity Assessment. If a copy of the Statement is provided to other people as a sample, the Statement shall be copied entirely.
- 11. Request by JET, if any, shall be satisfied when the issued Statement of Conformity Assessment is referred in information media, such as documents, pamphlets and advertisements.
- 12. The records on complaints about Specified Electrical Appliances and Materials covered by the Statement of Conformity Assessment shall be maintained and made available to JET upon request. Besides, the following steps shall be taken.
 - ➤ Appropriate measures shall be taken on the above complaints and the products whose conformity to the Technical Requirements of the Electrical Appliances and Materials Safety Law has turned out to be questionable.
 - > The taken measures shall be set down in writing.
- 13. After Statement of Conformity Assessment is issued, JET shall be allowed to make public the registered information (Applicant's name, the name of Specified Electrical appliances and Materials and the Statement Number).
- 14. If JET is requested by law to disclose classified information, JET shall be allowed to disclose it after notifying Applicant of the matters about which disclosure is requested.

[Matters related to any nonconformity identified during the Conformity Assessment]

15. If a lack of conformity is identified during the product test or the inspection of testing facilities, JET gives notice on nonconformity (the fact that conformity cannot be achieved without appropriate improvement) as a result of the Conformity Assessment.

Any continuation of the Conformity Assessment with a proposal for the improvement shall be applied within 40 days after the above notice. Such an application with a proposal for the improvement cannot be made more than twice.

Points while preparing application documents [PSE201811]

[Matters related to products for testing]

- 16. Products for testing shall be delivered to Tokyo, Yokohama or Kansai Laboratory, as designated by JET. Applicant shall be responsible for the transportation.
- 17. If the products for testing are with damage or a defect when delivered and JET informs Applicant about it, Applicant shall take measures to meet the situation immediately.
- 18. After the testing JET does not restore the tested products to their original condition, and shall not be responsible at all for the disassembly and damage caused by the test.
- 19. Applicant shall collect the tested products within 50 days of the completion of the test, and have no objection to JET's disposal of them if they are not collected within the above period. The expenses for the return or disposal of the tested products shall be borne by Applicant.

[Matters related to payment policy for Conformity Assessment fee]

20. Applicants are requested to prepay an assessment fee according to JET's estimate as a general rule. If an applicant applies to JET for the first time, JET starts testing after JET receives the prepayment. If an applicant applies to JET not for the first time, an assessment fee may be paid after JET carries out testing, but, as the case may be, JET may request prepayment depending on JET's judgment.

[Confidentiality]

21. JET shall use any information obtained from the Applicant regarding the Products and their manufacturing only for the Conformity Assessment, and shall not use any such information for other purposes, nor provide it to a third party without the consent of the Applicant or without a justifiable reason by the laws and regulations. Provided that the same shall not apply to any information which was in the public domain at the time of the conclusion of this Agreement, any information which has got to be publicly known after the conclusion of this Agreement without JET's malicious intent or negligence, or any information which JET acquired lawfully from a third party.

[Concerning about Applications on Electronic Files]

22. Application documents stated with necessary information and signed by the person responsible for the application can be sent to JET via E-media. Electronic Files will be treated as the originals of the application documents and applications can be accepted on Electronic Files. In that case, the originals of the application documents must be kept at the applicant side.

End of document

試験品の構造、材質及び性能の概要

The Outline of Products for testing : Structure, Material and Performance

1.	構造の概要 The Outline of Structure (製品のモデル名、並びに当該製品の機能、構造、動作原理などの概要を記載して下さい) (Please state the model name of the product as well as the outline of its function, structure and operating principles and so on.)
2.	材質 Material (外郭及び主要部品の材料(変圧器、電動機などは「巻線の絶縁の種類」の根拠となる絶縁物名)を記載して下さい) (Please state the material of the outer case and main components (as for transformers, motors and so on, the name of the insulator by which "winding insulation class" is to be judged).)
3.	性能又は定格 Performance (Ratings) (性能、電圧・消費電力などの電気定格等、「型式の区分」が判断できる内容を記載して下さい) (Please state the factors by which "Type Classification" can be judged, such as performance, the ratings for voltage, power consumption and so on.)
4.	技術的情報 Technical information (試験品の写真・図面、構成部品一覧表、回路図、取扱説明書、その他試験を実施するために必要な資料) (Please provide photos, drawings, a list of components, circuit diagrams, an instruction manual and other information necessary for testing.)

特定電気用品の表示

Marking for Specified Electrical Appliances and Materials

1	性学委告田日。のまデ M 1:
1.	特定電気用品への表示 Markings on "Specified Electrical Appliances and Materials"
2.	荷札又は包装容器への表示 Markings on the Labels, Tags or Packaging
	(電線、ヒューズ、配線器具、変圧器等の特例) (Special cases for cables, cords, wiring devices, transformers and so on.)
	Regarding "Electrical Appliances and Materials" for which marking on the Labels, Tags or Packaging is permitted to meet the marking requirements (Appendix 5) under Enforcing Rules Article 17 (Method of marking), please specify the marking contents. Besides, regarding single items of components of from Technical Requirements Appendix 1 through Appendix 6 which are regarded as "Electrical Appliances and Materials" and for which "marking" is made on "Labels", "Tags" or "Packaging" and marking on "the product itself" "can be omitted partially", please specify the marking contents on "Labels", "Tags" or "Packaging" and marking on "the product itself" "can be omitted partially", please specify the marking contents on "Labels", "Tags" or "Packaging". 施行規則第17条(表示の方式)に係る表示義務内容(別表第五:電気用品の表示の方法)として、「荷札」又は「包装容器」 への表示が認められている「電気用品」については、表示内容を明記して下さい。 また、技術基準別表第一から別表第六までの部品単品で「電気用品」の対象となるものであって、「荷札」又は「包装容器」 への「表示」を行うものにあっては、「製品本体」への表示を「一部省略することができる」電気用品もあることから、「荷札」又は「包装容器」 への「最振」」へ表示する場合には、表示内容を明記して下さい。
3.	届出事業者の略称又は登録商標 Notifying Supplier's abbreviation or registered trademark (電気用品安全法施行規則第17条の規定により表示すべき届出事業者の氏名又は名称について、略称又は登録商標を 用いる場合、経済産業大臣の承認を受けた略称、又は経済産業大臣に届け出た登録商標に限ります) If the Notified Supplier is to use its abbreviation or registered trademark based on the provision at Article 17 of Enforcing Rules for Electrical Appliances and Materials Safety Act, the abbreviation must be approved by the Minister of Economy, Trade and Industry and Notice on the registered trademark must be submitted to the Minister of Economy, Trade and Industry.
